2. In addition, S/OM would be interested in information of the  
following nature:

(1) Any changes or revisions being made in the previously  
announced goals of the second five year plan and any reorganization of  
the government planning machinery established at the national and local  
levels. (c.)

(2) The reactions of former private businessmen to the 1956  
drive to socialize industry. Any evidence of amalgamation of former  
private businesses, reorganization of the management structure, and  
the type of state control exercised over the newly converted enterprises.  
(Is it national or local and what are the specific administrative organs?)
